

PHARMACISTS, PHARMACY OPERATIONS, AND DRUG SCHEDULING ACT
VETERINARY DRUG ADDITIVES FOR MEDICATED FEED
(Revised October 2009)

SCHEDULE A, TABLE 1

Acetyl (para-nitrophenyl)-sulphanilamide	Nicarbazin
Amprolium	Nifursol
Arsanilic acid	Nihydrazone
Bacitracin methylene disalicylate	Nithiazide
Bambermycins	3-Nitro-4 hydroxyphenylarsonic acid
Buquinolate	Nitrofurazone
2-Chloro-4-nitrobenzamide	4-Nitrophenylarsonic acid
Chlortetracycline hydrochloride	Novobiocin
Clopidol	Nystatin
Decoquinat	Oleandomycin
Dibutyltin dilaurate	Oxytetracycline hydrochloride
Diclaceril	Phenothiazine
3,5-dinitrobenzamide	Piperazine
Dinitrodiphenylsulphonyl ethylenediamine	Poloxalene
Dimetridazole	Procaine Penicillin
Erythromycin thiocyanate	Pyrantel tartrate
Ethopobate	Reserpine
Fenbendazole	Robenidine hydrochloride
Fenthion	Ronidazole
Halofuginone hydrobromide	Sodium Salinomycin
Hygromycin B	Sodium sulphate
Lasalocid Sodium	Spectinomycin
Levamidole	Streptomycin
Lincomycin	Sulfphamethazine
Maduramycin ammonium	Sulphaquinoxaline
Melengestrol acetate	Thyroacflve iodinated casein
Monesin sodium	Tiamulin
Morantel tartrate	Tylosin phosphate
Narasin	Virginiamycin
Neomycin sulphate	Zinc bacitracin
Nequinat	Zoalene

**PHARMACISTS, PHARMACY OPERATIONS, AND DRUG SCHEDULING ACT
VETERINARY DRUG AND MEDICATED FEED
(Revised October 2009)**

SCHEDULE A, TABLE 2

**Veterinary drugs which can be sold by the holders of the appropriate Veterinary Drug Licenses.
Live and modified live vaccines may not be sold, except poultry vaccines if specifically permitted under licence.**

***BIOLOGICALS require refrigeration until used.**

POULTRY	MINK
<i>(Usually only licensed hatcheries can handle these)</i>	<i>(Restricted – handled by special outlets)</i>
Avian Encephalomyelitis vaccine	Mink botulism toxoid
Erysipelas bacterins	Mink distemper vaccine
Infectious bronchitis vaccine	Mink virus enteritis vaccine
Infectious bursal disease vaccine	
Infectious laryngotracheitis vaccine	
Marek's disease vaccine	
Mycoplasma gallisepticum bacterin	
Newcastle disease vaccine	
Pasteurella bacterin	
Viral arthritis vaccine	
CATTLE, SHEEP AND GOATS	PIGS
Bovine respiratory syncytial virus vaccine	Actinobacillus (Hemophilus) bacterin
Bovine virus diarrhea vaccine	Atrophic rhinitis bacterin
Campylobacter (Vibrio) bacterin	Clostridial bacterins and toxoids
Coronavirus vaccine	Coronavirus vaccine
Clostridial bacterins and toxoids	E. coli bacterin
Corynebacterium bacterin	Erysipelas bacterin
Dichelobacter nodosus (sheep footrot)	Leptospira bacterin
E. Coli bacterin	Klebsiella bacterin
Hemophilus somnus bacterin	Mycoplasma hyopneumonia bacterin
Infectious bovine rhinotracheitis vaccine	Parvo vaccine
Leptospira bacterin	Pasteurella bacterin
Parainfluenza vaccine	Rotavirus vaccine
Pasteurella bacterin	Streptococcus bacterin
Rotavirus vaccine	Tetanus antitoxin
Salmonella bacterin	
Staphylococcus bacterin	
Streptococcus bacterin	
Tetanus antitoxin	
Tetanus toxoid	
Trichomonas bacterin	
AQUACULTURE – RESTRICTED OUTLETS	RESTRICTED OUTLETS
Vibrio anguillarum bacterin	Aeromonas salmonicida bacterin
Vibrio ordalli bacterin	Yersinia ruckeri bacterin
Vibrio salmonicida bacterin	

PHARMACISTS, PHARMACY OPERATIONS, AND DRUG SCHEDULING ACT
VETERINARY DRUG AND MEDICATED FEED
(Revised October 2009)

SCHEDULE A, TABLE 2 (cont'd)

Veterinary drugs which can be sold by the holders of the appropriate Veterinary Drug Licenses:

HORSES	MISCELLANEOUS VETERINARY DRUGS
Streptococcus equi bacterin	<i>(Single or combination)</i>
Tetanus antitoxin	Barium chloride
Tetanus toxoid	Chlorhexidine
	Copper salts iodine and preparations thereof
	Propylene glycol
	Pregelatinized starch (as a demulcent only)
	Silicones
	Sodium propionate
	Surfactant veterinary drugs for use in prevention and treatment of ruminant bloat
	Tatar emetic
	*Estradiol benzoate (growth promotion use only)
	*Progesterone (growth promotion use only)
	*Testosterone Propionate (growth promotion only)
	*Zeranol
*ANTIBIOTICS	*CHEMOTHERAPEUTICS
<i>(Single or combination)</i>	<i>(Single or combination)</i>
Bacitracin (for topical use only)	Amprolium
Dihydrostreptomycin	Benzimidazole preparations
Erythromycin	2, 4-diamino-1-p-chlorophenol
Fumigillin	Dichlorovos anthelmintics
Lincomycin hydrochloride (for oral use only)	Dimetridazole
Neomycin	Epinephrine
Novobiocin (for intramammary use only)	Febantel
Penicillin G	Ivermectin (AVERMECTINS)
Polymyxin B	Morantel tartrate
Streptomycin	<i>Moxidectin</i>
Tetracyclines	<i>Moxidectin & Praziquantle</i>
Tyrothricin (for topical use only)	Nithiazide
	3-nitro-4-hydroxyphenylarsonic acid (maximum strength of tablet 3.5%)
	Nitrofurans and the analogues (for horses only)
	Famphur
	Phenothiazine
	Piperazine salts
	Pyrantel
	Sulphadiazine
	Sulphamerazine
	Sulphamethazine
	Sulphanilimide
	Sulphathiazole
	dl-tetramisole or its isomers
	Trichlorofon (as a paste wormer only)
	Injectible vitamin and mineral preparations

PLEASE NOTE:

*No public access is allowed to the groups and individual drugs shown with an asterisk. All of the above must be sold in the original, unopened container
